Origami Butterfly

Mountain fold lengthwise, unfold. Fold the wings

Fold in half, vertically

Stand the bottom flaps up. Slide your finger in to separate the flaps

Fold the flaps down - flip

The figure flipped

Stand the flaps up

Fold the flaps down - flip

Fold the excess material under the wing. Repeat with the other wing and flip

These lines become this line

Excess material

Do not crease

Make two creases using your fingernail in the head of the butterfly

Fold the tip left. The side folds almost fold themselves as you pull the tip over

Red lines indicate a new fold. Dashed lines are hidden. A light weight solid line is an old fold.
